Features

CO₂ sensor: The user is informed when additional ventilation is required. The heater will be switched off when the room is not ventilated sufficiently.

No installation: This heater can be installed without wires and without exhaust pipes. This makes it a very convenient heating source.

High efficiency: This heater has a 99.99% heat efficiency with infrared radiation heating.

Wick-stop:

The wick stop mechanism of this heater limits the flame height adjustment. This ensures a clean combustion.

Automatic tip-over switch: The heater will be shut off automatically when the heater is knocked over.

Safe top: The temperature of the top plate is kept relatively low for improved safety.

Safety stop:

This heater is equipped with a shut-off safety switch. By pressing this switch the heater will be shut off immediately.

Safety system: This heater is fitted with a safety system that automatically switches off the heater after approximately ||IntermittentBurningTime|| hours of continuous operation. Use the safety stop to switch off the heater immediately.

Battery cover:

This heater is equipped with a cover for the batteries.

Fuel filter:

Protects the burner system.
